Fellow Townsmen: In reporting upon the school work of the year, I find it rather a hard task under the existing circumstances, and yet, it is due to the taxpayer that he should know the situation from my point of view at least.

I found upon being elected to fill the vacancy caused by the death of Supt. A. J. Hayes, that no preparation had been made for the winter terms of school, except for teachers, and upon investigation found it was going to cost more for fuel than it would have, had it been bought the winter or spring previous. This extra expense is unnecessary and should be avoided in the future.

I also found bills due that should have been paid in 1909, which would have made the amount overdrawn Feb. 1, 1910, about forty dollars more than the report showed. This, of course, left us that much less to expend on our winter term. And right here I want to say that every dollar of school expense has been paid as far as I know or can learn of and our spring terms start with a small balance to our credit.

I found upon assuming charge of the school work, that a very efficient corps of teachers were in charge of the different schools, which with one or two exceptions were retained for the winter terms.

There is one matter, however, which I feel it my duty to call your attention to, which all will see at a glance is not as it should be. The schools of the village at Locke's Mills have cost in round numbers \$629.00 for 28 weeks of school, or an average cost of \$11.05 for each room per week. When you compare that with the average cost of the other schools per week, you will see at once that something is wrong. Now from my point of view, this is not necessary and can be avoided without injury to either school in any way.

I do believe, however, that in the Grammar room we should have a teacher in the future, as we have had in the past, that is a good disciplinarian, and capable of teaching the High School branches, and for such a teacher who is willing to give their best effort to the work, we must pay a fair remuneration for their labor.

But in the Primary room I see no reason why we should not hire a teacher for the same wages as we pay in our mixed schools where there is certainly as much or more work for a teacher to do.

I am also aware that good teachers of experience are very scarce and hard to get, and when you secure one in order to retain them you must pay as good wages and give them about as many weeks as other towns unless you cannot hope to keep them. Now in order to accomplish this, we must raise a liberal amount of money for school purposes, then get all the good from it we possibly can.

Respectfully submitted,

GEO. W. RICHARDSON, *Superintendent.*

Report of Board of Health.

OFFICE OF LOCAL BOARD OF HEALTH,

Locke's Mills, Maine.

TO THE SELECTMEN OF THE TOWN OF GREENWOOD:

The following is the report of the Local Board of Health, for the year ending Dec. 31, 1910:

During the year of 1910 there have been two nuisances reported to this Board which were investigated and taken care of to the satisfaction of the Board and the complainant.

There was one contagious disease (Scarlet Fever) reported during the year, only one case, which resulted in complete recovery.

Respectfully submitted,
